

## **Heavy Duty Telescoping Flagpoles - Made In USA**

### **20-Foot and 25-Foot Heavy-Duty Telescoping Flagpoles**

We offer 20-foot and 25-foot Heavy Duty Telescoping Flagpoles that come fully assembled with 4 or 5 moving sections. The base of the pole is 3.00" with heavy duty 13-gauge (.090) wall thickness. The anodized aluminum sections lock into place with a heavy-duty stainless-steel pin. As each section is raised and locked into place, the pin is visible. It features heavy duty harness rings that are free floating to accommodate various sizes of flags. It can fly two flags at once or one flag at half-staff. The diameter of the pole, the gauge and thickness of the aluminum make it a great choice for high wind areas.

Heavy Duty Telescoping flagpole comes with the following:

- 3-inch Gold Aluminum Ball Ornament, for top of your flagpole
- A Double Flag Harness to fly two flags or fly one flag at half-mast
- 4' x 6' Nylon USA Flag with Embroidered Stars and Sewn Stripes
- 3-inch Installation Sleeve with complete instructions
- 4 Spring Clips to secure flags
- 3 colors to choose from

### **10 Year Manufactures Warranty**
