

## Sectional Flagpoles We Offer - Made In USA

### Halyard – Roped Flagpoles

#### Heavy-Duty

Constructed using 2.4" diameter, six foot long **11 gauge** sections these flagpoles are durable and reliable in high wind areas. They feature silver anodized aluminum sections, large cast aluminum cleat, stainless steel truck, four stainless steel clips, halyard, and 3" metal ball finial. They come with heavy duty aluminum ground sleeve and instructions for installing it yourself or have us do it for you.

By utilizing the ground sleeve this allows for easy access if maintenance is needed for top of pole.

Simply remove the flags first and then the pole from the sleeve.

Compared to the most common 18- or 16-gauge poles offered these are an outstanding value that will outlast the others, especially under high wind conditions. The truck is constructed of stainless steel compared to others that are made of some form of plastic that will fail over time because of exposure to the elements.

#### **15 Year Manufactures Warranty**

### **17 feet 2.4" Diameter Sectional Heavy-Duty Flagpole**

#### Super-Duty

Constructed using 2.75" diameter, six foot long **10 gauge** sections these flagpoles are unmatched for durability and reliability. They feature silver anodized aluminum sections, large cast aluminum cleat, stainless steel truck, four stainless steel clips, halyard, and 3" metal ball finial. They come with heavy duty aluminum ground sleeve and instructions for installing it yourself or have us do it for you.

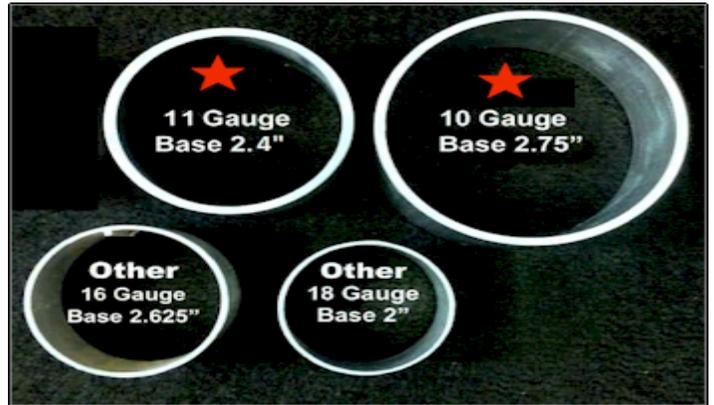

By utilizing the ground sleeve this allows for easy access if maintenance is needed for top of pole.

Simply remove the flags first and then the pole from the sleeve.

Compared to the most common 18- or 16-gauge poles offered these are an outstanding value that will outlast the others, especially under high wind conditions. The truck is constructed of stainless steel compared to others that are made of some form of plastic that will fail over time because of exposure to the elements.

#### **15 Year Manufactures Warranty**

### **23 feet 2.75" Diameter Sectional Super-Duty Flagpole**

**Compare the 10 gauge or 11 gauge to others 16 gauge and 18 gauge poles.**

**Over time in the high wind areas the others will give out and bend.**

**When that happens you are trying to replace that section or even the whole pole, if you can not find individual sections.**

**5 inch Interlock  
6 foot Sections**

**HD Cleat  
Halyard  
4 Stainless Steel Clips**

**Included**

**Heavy Duty  
Aluminum Sleeve  
Included**
